Family guide: Using member tickets for a Sports Carnival

Seattle Little Rangers · October 2026

SLR holds two Sports Carnivals a year. Every member family has two tickets for **each one**: **one ticket lets one child in, and parents come free**. You can use them yourselves or give them to friends. A friend who is given a ticket code **doesn't need to be a member**, and this guide is for them too.

Each member family has two ticket codes, and **the same code works at every Carnival, once at each**. There are no new codes to wait for.

Where to find your ticket codes

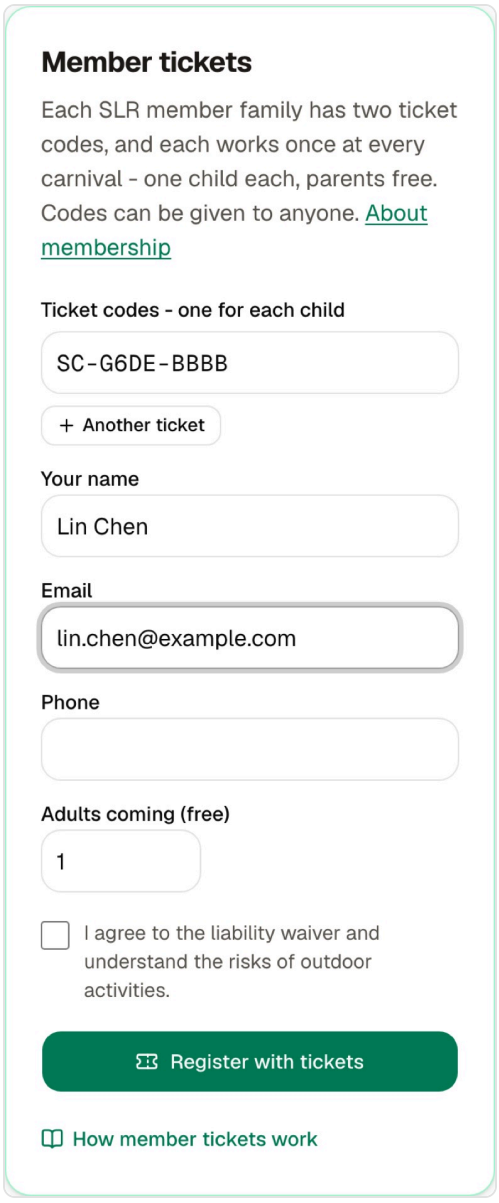
A ticket code looks like this: **SC-7K4M-2XPQ**.

- They are in a member family's welcome email (and renewal email);
- signed in on the website with the member email, they are on the membership card at the top of **My registrations**, which also shows where each code has been used (see Signing in and "My registrations").

To give one to a friend, just send them the code (the copy button beside the code on the card copies it, ready to paste into a message). A code works at every Carnival, so agree which Carnival it is for, or both families may want it at the same one.

Registering with tickets

1. Open the Sports Carnival's page on the website (**Events**, at the top).
2. Scroll down to **Member tickets**:



Registering with member tickets

3. Enter the ticket code under **Ticket codes**, one code for each child. For two children, press **Another ticket** to add a line. Capitals, spaces and dashes don't matter.
   A member who is signed in sees **Use my tickets** here, which fills in the codes they haven't used for this Carnival yet.

4. Give your name, email and phone, and how many adults are coming (parents are free).

5. Check the liability waiver box and press **Register with tickets**.

When you see **You're registered!**, you are. The **Get tickets** button, which sells tickets on Zeffy, is for families without member tickets; with tickets there is nothing to buy.

The rules for tickets

- Each code works once at each Carnival. Entering it again for the same one says “has already been used for this event”; it works again at the next Carnival.
- Once a membership has expired or been cancelled, its codes stop working.
- Tickets only work at events marked **Member tickets accepted**, such as the Sports Carnival.
- If you registered and can’t come, email SeattleLittleRangers@gmail.com. Once we cancel the registration, that ticket can be used for that Carnival again.

What the messages mean

Message	What it means
“doesn’t look like a ticket code”	The code isn’t in the right form. Check it was copied correctly.
“No ticket has the code …”	There is no such code. Check each letter.
“has already been used for this event”	That code has already been used at this Carnival.
“belongs to a membership that has ended”	The membership of the family who gave you the ticket has expired or been cancelled, so the ticket no longer works.
